ACHIEVEMENTS

Secured 1st position in the Coding competition (E-villa) held at our IT department in LEC Morbi

PROJECTS

1. UniCampus: (Flutter App)

For the last year's project I and my team members built an app named "UniCampus" using Flutter with Firebase as backend. App's main goal was to digitize major campus activity, making student's everyday life easy.

Activities covered by UniCampus:

- Library Management
- Examination Time-Table and Syllabus
- Seating Arrangement
- Event Management
- Attendance Management
- To-Do list
